

# STUDY IN AUSTRALIA

(THE LESS EXPENSIVE ROUTE > PATHWAYS)

### DID YOU KNOW?

- Diploma = 64 Credits
- Advanced Diploma = 128 Credits
- University Degree = 192 Credits

### SO WHAT?

The Australian Qualification Training Framework allows for the transfer of THESE CREDITS from other institutions (Vocational Schools.)

Many international students choose this method of study to achieve their desired qualification at university.

### WHAT DOES THIS MEAN?

E.g; Students who successfully complete an Advanced Diploma of Business at a vocational school may receive 128 credit points (2 yrs) out of a total of 192 credit points (3 yrs) towards the Bachelor of Business Studies.

This means that students can complete the degree in 1 year of study at the University instead of 3 years.

This pathway is significantly advantageous.

One gets 2 Awards:

1. A Diploma in Business Studies
2. A Bachelor of Business Administration or anything related to the Diploma awarded

Vocational Colleges in Australia have formal agreements with the best universities across Australia and New Zealand which you can join after your Vocational programme.

Tuition at Vocational Schools	-----	AU\$6,500 - AU\$16,000 per year!!!
Tuition at Universities	-----	AU\$15,000- AU\$25,000 per year!!!
